

UNDERSTANDING YOUR MONTAGE LAYOUT

Let's look at your customisation options for your photo prints layout.

LAYOUT STYLE

This refers to the type of photo montage layout you would like for all the images in the session. 2 examples are seen on the left and right. If you have printing included, then this is what will print.

DIGITAL BACKGROUND

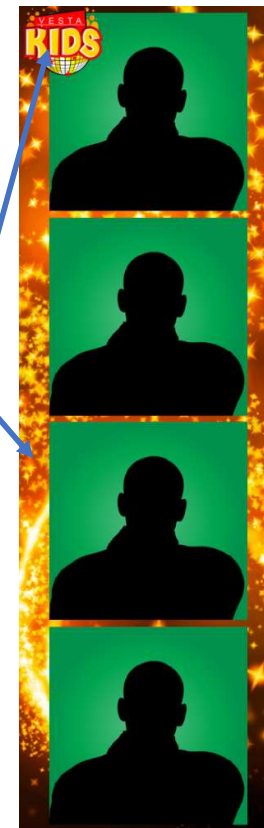

This refers to the digital image used as the background on your layout behind and/or underneath your photos. You can select from our digital images library, or choose to source your own.

MESSAGE

Some layout options (such as shown on the left), have an option to include a custom message.

OTHER REQUESTS

Any other customisations you wish to make should be included. You may want to include an image (such as a logo), or choose a certain style of font. Describe your preferences in as much detail as possible and we can generate an example for you to approve.

UNDERSTANDING YOUR BACKDROP OPTIONS

Let's look at your options for backdrops if you are having one included. Review our backdrop options

TRADITIONAL BACKDROP

These are your standard backdrops to appear in photos as seen in the images on the right.

GREENSCREEN BACKDROP

Our booth can use green screen technology to have backdrops digitally created in your photos as shown to the left.

The advantage of this option is that you can select multiple backgrounds so each photo taken in a session is different, plus you can select your own images or from ones in our digital image library.

This is a great option if your event has a theme you are using!

WHAT'S NEXT?

Refer back to this information sheet if needed when making your customisation selections if you're not sure what they are referring to.

Depending on which inclusions you have requested, included with this information sheet are PDF documents showing our layout options, backdrop options, and our digital image library.

Open the customisation form also attached and complete your selections in it by reviewing the options from the PDF documents.

Once completed, simply send us your completed customisation form so we can make sure your customised photobooth is fully ready for you on the day!

If you have any questions or are unsure of something, please don't hesitate to reach out.
